Announcement for Immediate Release

Telstra further extends Beam Sourcing Agreement

World Reach Limited announced today that its wholly-owned subsidiary, Beam Communications Pty Ltd, has entered into an agreement with Telstra Corporation to extend the current product Sourcing Agreement for a further 2 years.

Beam has been a Preferred Supplier to Telstra for over 5 years and the extension of this agreement further reinforces Beams strategic relationship with Telstra through the provision of an extensive range of satellite communication solutions for consumer, Government and Corporate applications.

Yours faithfully

A handwritten signature in black ink, appearing to read "Michael Capocchi". The signature is stylized with a large, sweeping initial letter.

Michael Capocchi
Managing Director

About Beam Communications Pty Ltd

Beam Communications Pty Ltd is a wholly owned subsidiary of World Reach Limited, The Beam Communications subsidiary was established in 2002, making a substantial investment in the development and manufacturing of Remote Satellite Communications solutions for the global telecommunications market.

Beam was the first company to design and manufacture a fully compliant POTS emulation phone service for the Iridium Satellite network using its Remote Satellite Terminals. Now one of the leading global manufacturers of satellite communication equipment, Beam offers the widest range of Iridium solutions across all market segments.

Beam solutions are deployed into a wide range of vertical markets including Maritime, Transport, Government, Defence, Mining, Construction, Forestry, Emergency Services, Relief Aid, Telemetry and Rural Telephony.

Now one of the leading global manufacturers of Iridium-based satellite communications equipment, Beam offers the widest range of Iridium solutions across all market segments, and is particularly focused on the exploitation of the newly released Iridium data module targeted at asset tracking and other applications.

Beam prides itself on its ability to develop broad market applications as well as specific dedicated products and solutions.
