Company Report (Appendix 4C)

Enclosed is the Quarterly Report (Appendix 4C) for the 3 months ended 30 June 2010.

There was a net decrease in cash balances for the quarter of \$95K comprising a net decrease in cash from operations of \$443K offset by a net increase in cash from investment/financing activities of \$348K.

The cash position at 30 June 2010 was a net overdrawn balance of \$370K which is well within the Company's banking facilities of A\$1m.

Operations for the Quarter

Sales revenue for the quarter was \$1.7m which was lower than budget projections. This was largely due to the continued slow recovery in overseas markets, particularly in the USA, as a consequence of the global financial crisis. Gross margins were also lower than budget due to the strength of the A\$.

The Company has incurred a small loss for the period as a consequence of the lower than anticipated sales and margins.

Outlook

The world-wide sales launch of the Inmarsat hand held satellite phone and compatible Beam docking units will occur in September quarter. The Company has committed substantial resources to the development of compatible docking units and other accessories. As previously announced to the market Inmarsat has agreed to provide loan funds in excess of US\$3.1M for the development and marketing of these products by Beam with the loans to be repaid from product sales by Beam

Beam expects sales of A\$3-4.0m in the first year at acceptable margins of accessory products for Inmarsat satellite phones.

The sales of accessory products for Iridium handsets in North America and Europe have temporarily plateaued due to global economic conditions and the impending Inmarsat launch. The strength of the A\$ will continue to adversely affect the level of gross margins on US\$ denominated sales of these products.

Yours faithfully

Michael Capocchi
Managing Director
