BEAM RECEIVES ANOTHER IRIDIUM GO!® ORDER

World Reach Limited is pleased to announce that its wholly owned subsidiary, Beam Communications Pty Ltd ('Beam'), has received a further order for 5,000 units of the Iridium GO!® product.

This is now the fifth order received by Beam since commercial delivery of the product commenced in mid-2014, taking the total orders for the Iridium GO!® product to 35,000 units. This further order reflects the increasing end-user demand for the device and the utility it provides to customers requiring a global voice, messaging and SOS solution all in one single unit.

Based on the delivery schedule outlined by Beam's customer, the entire order will be supplied in the second half of FY'19. Beam will have the capacity to accelerate deliveries on request. This revenue, and its timing, has been budgeted in the company's forecast for FY'19.

With the continued success of various App's supported on the Iridium GO!® device, including Exchange, Gmail and Weather applications, the product now offers enhanced functionality, as well as proven reliability. Iridium will also be launching a new range of plans and promotional material to further enhance the promotion and success of the product for the coming years.

Yours faithfully

Michael Capocchi
Managing Director

About Iridium Communications Inc.

Iridium is the only mobile voice and data satellite communications network that spans the entire globe.
